Summary

About Me

Front-End Developer with ability to collaborate effectively with other developers while spending extra time to be mentored. Enjoy working with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I intend to learn new languages while sharpening existing skills to gain Full-Stack knowledge. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

Experience

Junior Developer

PC Technology

Feb 2016 - Oct 2016 (9 months)

Assessed UX and UI designs for technical feasibility.

- Standardized all output with a new, responsive, mobile-first approach and strategy
- Implemented websites, mobile applications, and landing pages from concept through deployment.
- Assisted in maintenance of software for engineering applications

SQL Developer

AWC Software Pvt Ltd

Sep 2019 - Jun 2020 (10 months)

Developed membership, event, and legal platform technology solutions, and automated internal processes.

- Assisted in building business reports for clients without compromising functionality for aesthetics.
- Learned and applied Agile methodologies and principles.
- Implemented manual and automated upgrade in reports for the business intelligence according to the client ERP systems.
- Created non-technical descriptions of operations and workflow to enable non-coding teams to function with minimal interruption.
- Designed and implemented forms and reports along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects

Web Developer

Wuagle

Apr 2021 - Present (1 year 7 months +)

Creating website layout/user interfaces by using standard HTML/CSS practices.

- Create and maintain software documentation.

● Gather and refine specifications and requirements based on technical needs

● Building the website from concept all the way to completion from the bottom up, fashioning everything from the home page to site layout and function.

● Integrate data from various back-end services and databases.

● Used Express.js as a stack for the development for the website which also includes some Javascript and Node.js languages eventually.

Education

Graphic Era Deemed to be University

Bachelors, Technology; Computer Science and Engineering
